Note new examiner.

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 20 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

This is new matter rejection since a negative limitation must have an exclusive support in the originally filed specification. See *Ex parte Grasselli*, 231 USPQ 393, BPAI, 1983. MPEP 2143.03, 2173.05(i).

Claims 1-17 are allowed, and cancellation of non-elected claims 18 and 19 are suggested.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. JP 11323009 A teaches decomposing of polyurethane with an azole compound in a heated kneader type reactor in abstract, but does not teach or suggest the instant pre-heating step. The examiner does not see any motivation to use an additional pre-heating step in said JP. The art of record Castle (US 3,954,681)

teaches that the product obtained after devulcanizing step is thermoplastic at col. 4, lines 61-66, and thus urethane moieties would not be decomposed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
